

MPT-3D-Connectors

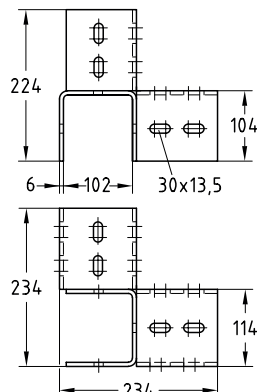

hot-dip galvanised

Application

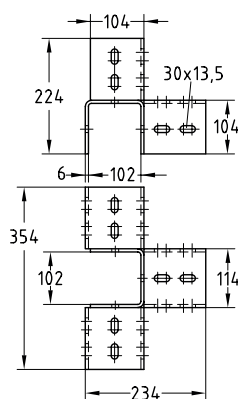

- Fasteners for three-dimensional frame constructions and rail constructions in heavy-duty building technology, industrial construction and plant engineering

Your advantages

- Fast and simple installation of three-dimensional connections joints in combination with the MPT-Hammer head bolts
- Fast profile alignment
- Time and cost savings thanks to easy handling and assembly on the construction site
- High-quality hot-dip galvanising for universal implementation outdoors and indoors

MPT-Corner connector

MPT-Mid connector
