

Hammer drills SDS-plus

with 4-blade technology

Application

- For fitting in SDS-plus chucks
- For fast drilling in reinforced concrete, concrete, masonry and natural stone

Your advantages

- Made of high-quality heattreated steel specially selected for the toughest applications
- 4-spiral drill body geometry for smooth running and optimal guidance in the drill hole
- 5 crushers use impact and torsion to create precise drill holes in concrete and reinforcement
- Carbide plate with radially shaped reinforcement protection prevents hooking when hitting reinforcement
- The highlighted centering tip ensures that the drill can be used for a long time, even in extreme applications
- Wear marks show whether the tool is still suitable for drilling holes suitable for dowels
- Low vibration to protect people and machines
- Very long service life thanks to evenly distributed wear

Diameter [mm]	Total length [mm]	Usable length [mm]	Content	Part no.	Sales unit	Pack unit
