

## Slide guide 1 kN galvanised

### Application

- Attachment of pipes with thermal, axial expansion
- A variety of installation possibilities (floor-mount, ceiling-mount)
- Suitable for pipes mounted from above and from below

### Your advantages

- Flat, compact design for secure mounting in cramped mounting situations
- Reliable length compensation within the sliding range during temperature changes in the piping system
- Silent gliding thanks to integrated plastic guide

### Features

Max. recommended load [N]	1,000
Temperature range	up to +120 °C
