

Glass fibre tape

Application

- Pipe clamp lining for reliable galvanic isolation of different metals
- For indoor and outdoor use

Your advantages

- Effectively prevents contact corrosion between different materials
- Extends the service life of pipes and their fixings
- Excellent chemical resistance
- Single-sided adhesive: enables quick and easy installation

Features

Temperature range	to 500 °C
Density	900 kg/m³

Width [mm]	Thickness [mm]	Length [m]	Part no.	Sales unit	Pack unit
30	2	10	182426	1	Pieces
40			182427		
50			182428		
60			182429		
70			182430		
80			182431		

 To ensure that the contact surface between the pipe and the pipe clamp is completely covered, the fibreglass tape should be wider than the pipe clamp.
