

### MAFUND® plate

#### Application

- For machines, equipment, body soundproofing
- Effective protection from shock, vibration and structure-borne noise

#### Your advantages

- High resistance against ageing and chemical influences
- High stability across a wide temperature range

- Convenient, secure application through selection of load and number of MAFUND® layers
- High static friction ensures installation without any further fastening in most cases
- Exceptional suspension and damping
- Minimal material usage with high insulation effect
- More cost-efficient than complete insulation systems
- Extended service life of machines, equipment, etc.
- Lower noise pollution through acoustic decoupling

#### Features

Material	NR/SBR Polymer
Shore A hardness	45 ± 5
Temperature range	-20 °C to +80 °C
Static elasticity module [N/cm²]	324
Dynamic elasticity module [N/cm²]	441
Loading nominal [N/cm²]	2 - 25
Loading max. [N/cm²]	50
Weight [kg]	2.884

Length [mm]	Width [mm]	Height [mm]	Part no.	Sales unit	Pack unit
