

VARIO-Twin pipe clamps galvanised

Application

- Ideal for parallel pipes
- Ideal as support for risers or suspended pipes
- Ideal for good appearance as the safety fastener is on the inside
- Suitable for attachment of pipelines in residential and industrial constructions
- For indoor use

Your advantages

- Twin clip has the fastening advantages of the safety clip
- Safety fastener without fastening screws
- Distance between pipe axes is adjustable
- Markings facilitate the distance adjustments
- Allows combination of different pipe diameters on one twin clip

- Efficient support for 2 pipes with one anchor plug
- DÄMMGULAST® vibration control lining with green identification stripe: average sound level improvement up to 18 dB(A)

	35			34	55		107311	
	42	60 - 105	56 + A	37	62	107312		

! The mounting distance of the pipe from the structure element is determined by the selection of the appropriate bolt screw length. The distance can be adjusted by means of the nut and locknut. The fitting of the VARIO-Twin bracket by means of anchors enables the distance from the structure to be continuously adjusted while maintaining flexural rigidity.
