

Duct clamps

with DÄMMGULAST® orange, stainless steel

Application

- For attachment of spiral-seam pipes

Your advantages

- Manufactured to suit air duct dimensions
- The 2 locking screws allow adjustment to accommodate a greater variation in pipe diameter

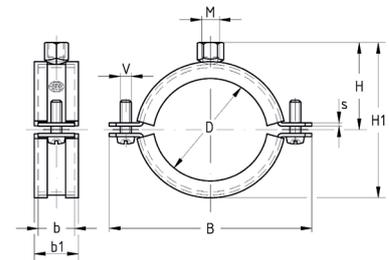

- Acoustic insulation, positive-fit liner with wide clip-over edges prevent the lining from slipping out of the pipe clamp
- Vibration control lining DÄMMGULAST® Junior with orange identification stripe: average vibration improvement of up to 18 dB(A)

Features

Max. recommended load [N]	500
Average vibration reduction [dB(A)]	18
