MPC-Wall hanger bracket

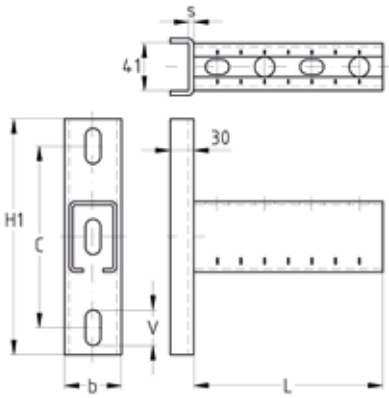
for the attachment on support channels, hot-dip galvanised

Application

- Wall hanger bracket with solid, rounded-edge base plate for the attachment on support channels
- Solid cantilever construction due to support from diagonal strut

Your advantages

- Clip-over edges of the base plate for good appearance
- Variety of set lengths covers all constructional requirements
- Simple height adjustment when mounted in the channel slot
- Clean-cut appearance by the use of MPC-protection caps



For profiles	Length L [mm]	Dimensions [mm]					**Part no.**	Sales unit	Pack unit
