

### MPC-Cross channel connectors

galvanised

#### Application

- For cross-connections in pre-wall installations and for shelves made from MPC-Support channels

#### Your advantages

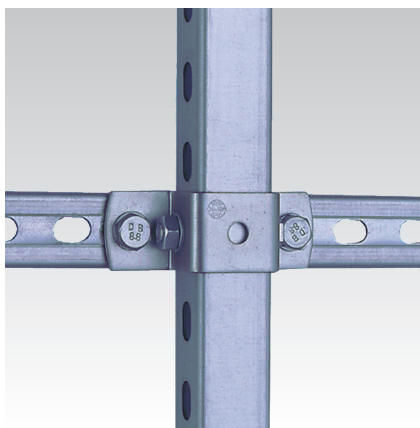

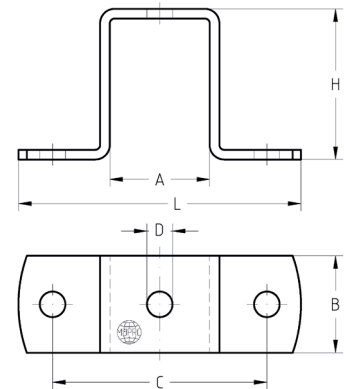

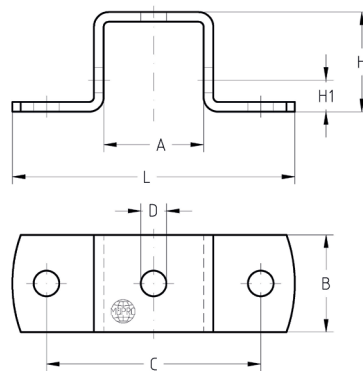

- Easy-to-install connection elements for setting up structures with the measured calculated static loads using MPC-Support channels
- Greater flexibility when setting up structures made from channels
- For rotation-resistant attachment to building structure

For profiles 28/30

For profiles 38/40, 38/48, 39/52, 40/60, 40/80, 38/80 and 40/120
