

MPC-Saddle supports

stainless steel

Application

- Simple assembly of strong cross-beams using MPC-Support channels
- Applicable for cramped installation conditions in shafts and ducts

Your advantages

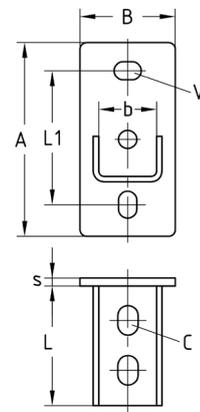

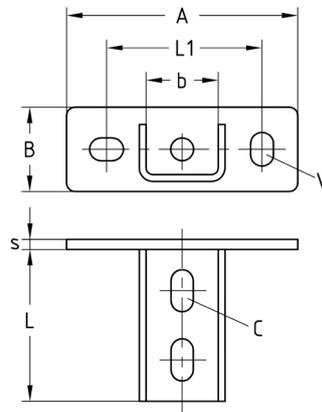

- The vertical and horizontal holes in the base plate enable simple alignment of the MPC-Saddle support
- Good load transfer due to the high bending stiffness of the saddle connection
- Ideal connecting element for channel constructions

MPC-Saddle support, crosswise

MPC-Saddle support, lengthwise

Features
