MÜPRO

MPC-Saddle supports

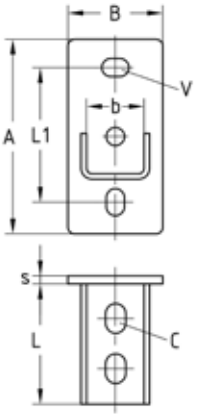
hot-dip galvanised

Application

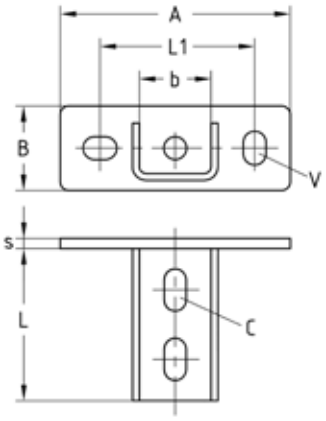
- Simple assembly of strong cross-beams using MPC-Support channels
- Applicable for cramped installation conditions in shafts and ducts
- For indoor and outdoor use

Your advantages

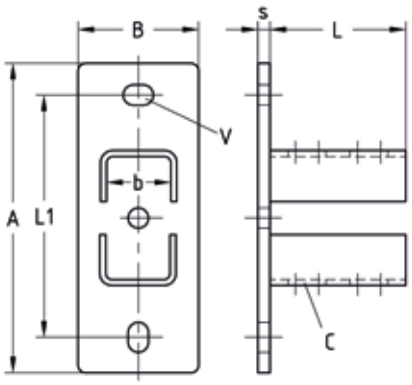
- The vertical and horizontal holes in the base plate enable simple alignment of the MPC-Saddle support
- Good load transfer due to the high bending stiffness of the saddle connection
- Ideal connecting element for channel constructions



MPC-Saddle support, lengthwise



MPC-Saddle support, crosswise



MPC-Saddle support, double, lengthwise for profiles 38/80, 40/80 and 40/120

Design	For profiles	Dimensions [mm]								Part no.	Sales unit	Pack unit
		A	b	B	C	L	L1	s	V
