

MPR-Girder cleats

galvanised

Application

- Attachment of MPR-Support channels to steel girders without drilling or welding
- For use in dry interiors

Your advantages

- Ideal solution for attachment of MPR-Support channels to steel girders
- Allows subsequent adjustment of the channels along and across the supporting beam
- Suitable for flange thicknesses of common support profiles
- Easy to install, pre-assembled kit
- Proper attachment of suspended loads on girders
- Girder cleats M8 or M10 VdS approved (please observe the profile size)
