

MPR-Angle connectors 135° type S+ galvanised

Application

- Connecting element for on-the-wall installations, shelves and rail constructions, preferably by using the MPR-Support channel 41/41
- For indoor use

Your advantages

- Fast and simple installation of angled joints with the MPR-Connection lock type S+
- Flexible use due to up to 4 connection locks depending on the design
- Increased load transfer when using 2 connection locks per leg
- Flexible connections in 2 directions with MPR-Support channels 41/41

MPR-Angle connector 135° 2+2 type S+

MPR-Angle connector 135° 4+4 type S+

Features

| Material thickness of support channel [mm] | Design | Permissible load F ₁ [N] | Permissible load F ₂ [N] |
|--|--------|-------------------------------------|-------------------------------------|
| 1.5 | 2+2 | 2,500 | 2,000 |
| | 4+4 | 4,000 | 3,000 |
| 2.0, 2.5 | 2+2 | 8,000 | 5,000 |
| | 4+4 | | |

| Design | For profiles | Part no. | Sales unit | Pack unit |
|--------|--------------|----------|------------|-----------|
| 2+2 | 41/21-41/124 | 165833 | 10 | Pieces |
| 4+4 | | 165834 | | |
