

MPR-Angle connectors 135° type S+

hot-dip galvanised

Application

- Connecting element for on-the-wall installations, shelves and rail constructions, preferably by using the MPR-Support channel 41/41
- For indoor and outdoor use

Your advantages

- Fast and simple installation of angled joints with the MPR-Connection lock type S+
- Flexible use due to up to 4 connection locks depending on the design
- Increased load transfer when using 2 connection locks per leg
- Flexible connections in 2 directions with MPR-Support channels 41/41

MPR-Angle connector 135° 2+2 type S+

MPR-Angle connector 135° 4+4 type S+

Features

Design	Permissible load F ₁ [N]	Permissible load F ₂ [N]
2+2	2,000	1,500
4+4	4,000	2,500

Design	For profiles 41/21-41/124	Part no.	Sales unit	Pack unit
2+2		165883	10	Pieces
4+4		165884
