MPT-Saddle supports

hot-dip galvanised

Application

- Stable saddle supports in three sizes for accommodating MPT-Support profiles Q50, Q80, Q100 or Q150 for wall, floor, and ceiling connection

Your advantages

- For fast and efficient mounting of cross-beams of MPT-Support profiles
- Stable baseplate for safe fastening on the structural element
- Standardised hot-dip galvanising for flexible implementation outdoors and indoors
- Fully welded version of the grooved support saddle ensures high dimensional stability of the flange
