

Sealing compound for air ducts

cartridge à 310 ml

Application

- Ideally suited for sealing of galvanized steel sheets, in the construction of ventilation ducts and plant engineering

Your advantages

- Very good adhesion even on moist surfaces

- Simple and quick processing when used with common cartridge application guns
- Silicone-free
- Odourless and not corrosive as well as chemically neutral
- Remains permanently elastic and self-adhesive

Features

Basis	Polyacrylate
Density	1.53 g/ml
Consistence	Soft pasty
Temperature range	-30 °C to +80 °C
Working temperature	+5 °C to +50 °C
Open time	approx. 15-20 min (+23 °C/50 % relative humidity)
