

## Plasterboard plugs

for pre-insert mounting

Design	Screw diameter [mm]	Part no.	Sales unit	Pack unit
Metal	3,9-4.5-M4	112024	100	Pieces
Plastic	3.9 - 4.5	112022	200	

The plasterboard plug can be mounted without pre-drilling.

## Nail plugs

### Application

- Suitable for attachment in concrete, natural stone, plaster, lime sand brick, solid brick, etc.

### Your advantages

- Long spread zone for optimum grip

- Robust design of nail screw and plug withstands high impact forces
- Countersunk design of nail allows surface-flush installation
- Pozidriv nail head allows removal at any time
- Delivery pre-assembled prevents nail loss
