

Laminated plastic signs

Application

- High quality laminated plastic signs for marking of pipelines, fittings etc. meeting the high resistance requirements of the sign

Your advantages

- Standard sign size 100 x 50 mm suitable for the mounting base with protective cover
- Fire performance corresponds to fire class B2 (DIN 4102)
- Applicable outdoors
- Water resistant
- High resistance to chemicals
- Light-fast
- High-quality surface finish (approx. 500 N/mm² micro Vickers hardness)
- High gloss
- Printed according to individually styled specifications
- With engraved text according to customer specifications
- Also available with self-adhesive reverse side or with drilled holes

Terms and texts, engraved:
Individual terms and texts can be engraved on the laminated plastic signs according to customer requirements

Alternatively with full print:
Text according to customer specification in combination with individual logo in company's colours is imprinted on the laminated-plastic sign with a robust carrier foil

Printing of signs
