

Laser distance meter

LD 320

Application

- Ideal laser distance meter for indoor use
- Provided with all basic functions (length, area, volume, tracking permanent measure, Pythagoras with two meter points)

Your advantages

- High measurement accuracy, measure up to 60 m with laser precision

- Large figures and backlit display
- Calculates distance values within one second
- Different measure references on the frontside and backside of the housing
- Belt bag for comfortable transportation
- Robust structure with resistant box for challenging use on construction sites
- Simple, self-explanatory handling
- Secure and fast measuring on hard to reach locations

**Features**

Measuring accuracy at 10 m [mm]	±1.5
Min. measuring distance [m]	0.05
Max. measuring distance [m]	60
Laser class	635 nm, class 2
Measuring functions	Single and permanent measurement
Computational functions	Length, area, volume, tracking (permanent measure), Pythagoras with 2 and 3 meter points
Protection class	IP 40
Life cycle of alkaline batteries	up to 3,000 measurements

Type	Scope of supply	Length [mm]	Width [mm]	Depth [mm]	Weight [kg]	Part no.	Sales unit	Pack unit
LD 320	Belt bag, alkaline batteries	100	54	30	0.43	142404	1	Pieces
