

Hammer drills SDS-max

with 4-blade technology

Application

- For fitting in SDS-max chucks
- For rapid drilling in concrete, masonry and natural stone

Your advantages

- Four-cutting-edge drill bit for good centring in the drill hole
- Good removal of drill dust due to the generously dimensioned helix
- Minimised friction in the hole due to the optimised helix
- Two secondary cutting edges protect the main cutting edge against contact with steel reinforcements

Four-cutting-edge head

Hammer drills
