

MPR-3D-Corner connector type S+1

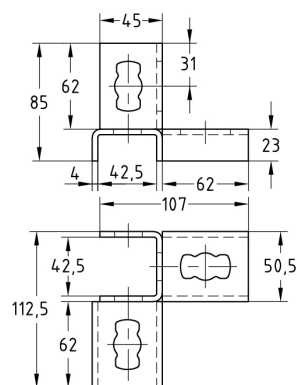

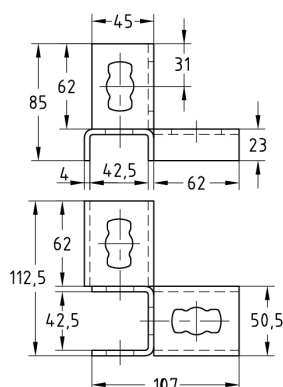

hot-dip galvanised

Field of application

- Fasteners for three-dimensional structures e.g. in shelves and rail constructions
- For indoor and outdoor use

Advantages

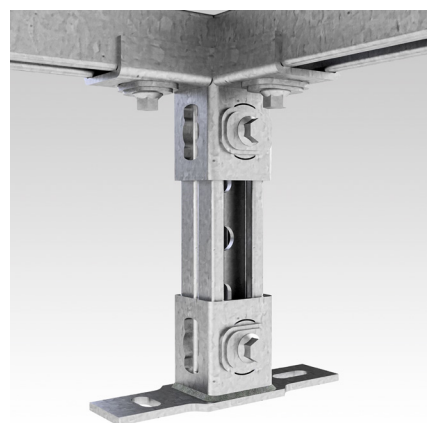

- Fast and simple installation of three-dimensional connections in combination with the MPR-Connection lock type S+
- Flexible arrangement of the rail slot on MPR-Support channels 41/21-41/41 with MPR-3D-Connectors type S+1
- Applicable for cramped installation conditions

MPR-Corner connector left type S+1

MPR-Corner connector right type S+1
