

MPC-Support channels

sendzimir galvanised

Field of application

- Ideal for pipe installation as support structure for air ducts in dry interiors
- Variety of mounting options for pre-wall installations and shelves in combination with extensive range of system components

Advantages

- Quick and efficient attachment of pipe sections and multiple pipe-ways
- Scale marks sideways and on the side with the slot simplify the alignment of the attachment elements during installation and facilitate the measuring and cutting to length of the section on site
- For secure fixing that is adjustable laterally and vertically
- High bending stiffness due to the cross-section design
- For setting up structures with correctly measured static loads by means of diverse connection components
- Clean-cut appearance by the use of MPC-protection caps
