

Cramping sets

Types FGA and FA, hot-dip galvanised

Application

- For fastening MÜPRO pipe slides on subconstructions of steel profiles
- Suitable for guides (expansion point) with lift lock
- Hot-dip galvanised version for indoor and outdoor use
- For pipe slides with a base plate up to 15 mm thick

Your benefits

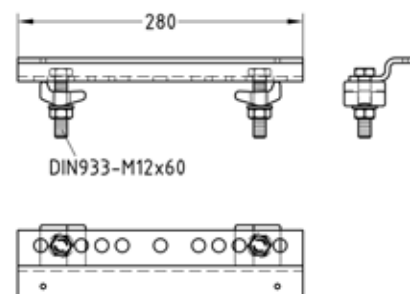

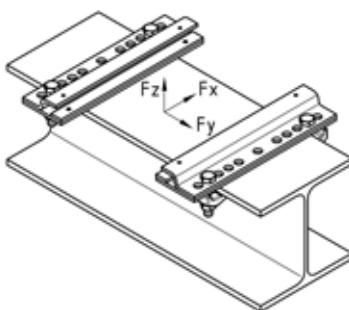

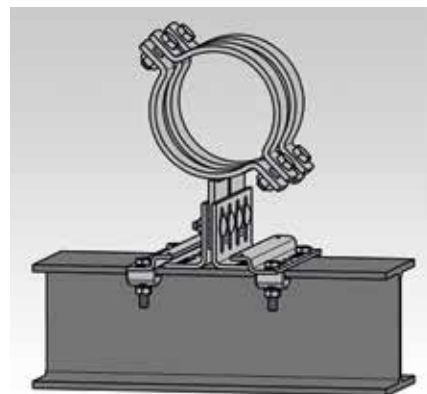

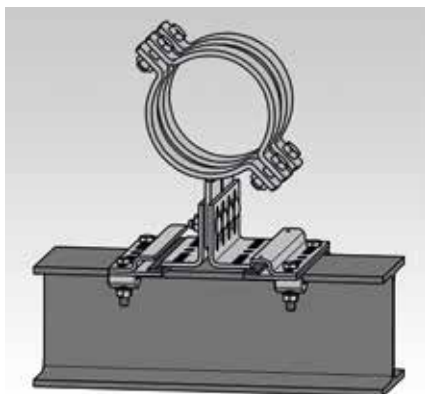

- Pre-assembled sets comprising cramping elements and the corresponding threaded pins and nuts for fastening a pipe slide on the subconstruction

Type FGA, with sliding plate

Type FA, without sliding plate
